EDUCATION

S-1 Matematika – Institut Teknologi Sepuluh Nopember

Surabaya, East Java

Bachelor of Mathematics (Computer Science), Faculty of Science and Data Analytics

2022-2026

Relevant Coursework: Data Science, Data Mining, Introduction to Machine Learning, Cloud Computing, Web Application, Science Computation, Digital Image Processing, Database Technology

WORK EXPERIENCES

GDP Labs (Djarum GDP's Venture)- Surabaya, Indonesia

February - August 2026

AI Engineer Intern

- Built an end-to-end Agentic AI for Data Science, leveraging approaches from OpenClaw, OpenManus, loop engineering, harness engineering, and autoresearch to enhance skills and manage memory.
- Developed two Data Science Agent frameworks for forecasting and anomaly detection, improving performance by 95% and reducing token usage by 80%.
- Solved the problem for a facial recognition spoof detection system covering 10+ spoofing cases and containerized with Docker for model serving and inference.

Avalon AI – Surabaya, Indonesia

December 2024–November 2025

Data Scientists Lead

- Developed a stateless HTTP backend service for Maps Lead AI, commissioned by Boring AI, to generate business leads based on criteria like business type, location, and reviews. Built five HTTP POST endpoints, integrated with the Workflow Executor and utilized Google Maps, SearchAPI.io, and OpenAI APIs for search, scraping, and review analysis, ensuring precise lead scoring.
- Led a team of startups to delegate in data science competitions and successfully winning more than 10 championships at the national level.

PT DIVUSI – Bandung, Indonesia

January 2025–February 2025

Data Scientists Intern

- Analyzed supply and demand datasets across 34 provinces and 514 cities/regencies in Indonesia, sourced from BUMN company and international enterprises.
- Developed and A/B tested tree-based forecasting models (Random Forest, XGBoost) for 12-month supply-demand prediction.
- Designed interactive dashboards with Streamlit to visualize correlation analysis and delivered strategic recommendations to stakeholders.

PROJECTS

Docs Q n A (2026) A NotebookLM-style AI Agent with 4 agents : summarize, analysis report, research, and math [code](#)

ETL Mining Multisource Data (2026) A daily ETL pipeline that tracks Indonesia's top 5 stocks. [code](#)

Content Engagement Analysis (2025) End-to-end project analyzing video reels Instagram with many sentiments. [code](#)

Intelligent Grading System (I-Grass) (2025) Automated Essay Grading System using machine learning for web-based Exams. [code](#)

Motion Fall/Non Fall Classification (2025) Machine learning models to solve Motion Fall Classification. [code](#)

Predictive Analytics on Sustainable Energy (2024) Analyzed energy, weather, and solar data through statistical methods and feature engineering to model baseline energy behavior. [code](#)

AWARDS

- [National] 5th Winner Big Data Challenge Satria Data ITS 2025 – Kemenristekdikti
- [National] Top 20 Pertamina Early-Stage Startup Competition 2025– PT Pertamina
- [National] PKM-KC (Program Kreativitas Mahasiswa Bidang Karya Cipta) 2023 – Funded by Kemenristekdikti
- [National] Top 5 GAMMAFEST Data Science Competition 2024 – Himpunan Mahasiswa Statistika IPB
- [National] Start-up Funded IYT (ITS Youth Technopreneur) 2025 - Institut Teknologi Sepuluh Nopember
- [National] Selected Team Representative from ITS, Data Mining Category Gemastik - Kemenristekdikti
- [International] TOP 3 GPBL Data Science Projects in Japan – Mathematics Department ITS and Computer Science Major SIT Japan

CERTIFICATIONS

BNSP Data Scientist Certification (August 2026), AI Engineer for Data Scientist Associate Certification from Datacamp (February 2025), MOS Data Analytics from Microsoft (July 2024), Fundamentals of Deep Learning from NVIDIA (July 2025), SQL Advance Certificate from Hackerrank (August 2024).

SKILLS

Data Science, Machine Learning, Data Mining, Data Analysis, Natural Language Processing, Computer Vision, Large Language Models, MLOps, Database Systems, Data Warehousing, Cloud Computing, Data Engineering.
